### + ERA-Can+ Twinning Programme – Call launched

With October 1, 2015 the ERA-Can+ project launched its first call for proposals. The Twinning Programme aims at supporting close collaboration between already existing European and Canadian research projects. Each twinning project should consist of at least one EU-funded project consortium (FP7 or Horizon 2020), and one Canadian project funded either at federal or provincial level. Both projects should be either running or have been completed for less than two years at the time of the proposal submission.

Twinning projects will be supported with up to 6 000€ per application.

Application deadline is January 4, 2016.

For more information and the call documents, please visit: <http://www.era-can.net/canada/era-can-twinning-programme-era-can/>
