1. Introduction

The NMP Partner Search Facility – PSF has been created as part of the NMP TeAm web-service www.nmpteam.com. The purpose is to offer a comprehensive and easy to use web-based tool that supports the building of consortia for promising proposals.

One of the main features of this tool is the validation of requests by a responsible National Contact Point - NCP. This ensures a high level of reliability and accuracy of data.

The validation of the entries includes an examination as to whether the information is reliable and if the specifications of the selected call topics have been considered.

Requests of users coming from EU member states or associated countries will be validated by the NCP of the same country. Registered NCPs from third countries will validate requests of users from their countries. In the case that a request has been submitted from a user located in a third country without a registered NCP, one of the NMP Team members will validate the entry. The assignment will be made using a random number generator.

For searches from third countries an appointed NCP from the EU member states or the associated countries will validate the partner details. The appointed NCP will be on a voluntary basis.

Another important feature is the distinction between:

- Partner offer - Researchers who offer their expertise in a specific topic of research and are looking for collaboration in possible project consortia and
- Partner search - Researchers or consortia with a definite idea for a project looking for additional partners to complement their expertise.

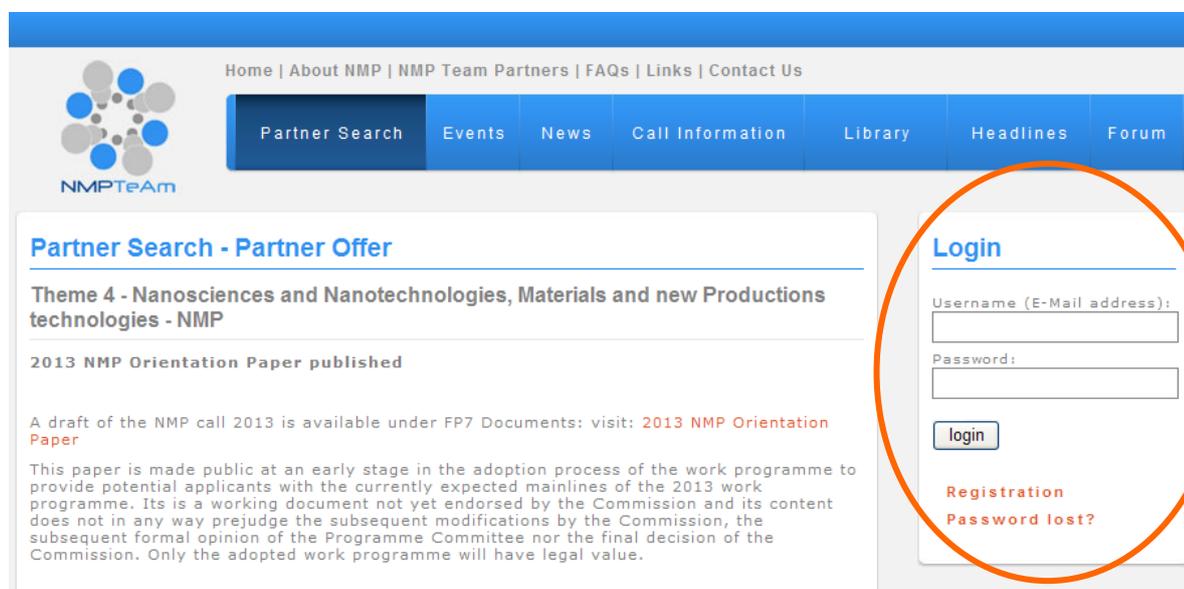

2.1: Login

If you are a registered user of the "NMP Partner Search" enter your username (e-mail address) and password to log in.

- 1.) If you are not already registered, push the **Registration** button and fill in the registration form.
- 2.) If you have lost your password push the **Password lost?** button and enter the e-mail address you used for the registration.

Keep in mind that in all these cases the username **IS** case sensitive so

MISTER@smith.com is different to mister@smith.com .

The screenshot shows the NMP Partner Search website interface. At the top, there is a navigation menu with links: Home | About NMP | NMP Team Partners | FAQs | Links | Contact Us. Below this is a secondary menu with buttons for Partner Search, Events, News, Call Information, Library, Headlines, and Forum. The main content area is divided into two columns. The left column features a section titled "Partner Search - Partner Offer" with a sub-heading "Theme 4 - Nanosciences and Nanotechnologies, Materials and new Productions technologies - NMP". Below this, there is a news item titled "2013 NMP Orientation Paper published" with a brief description and a link to the "2013 NMP Orientation Paper". The right column contains a "Login" form, which is circled in orange. The form includes fields for "Username (E-Mail address):" and "Password:", a "login" button, and links for "Registration" and "Password lost?".

Screenshot 1: Login

2.2 Registration

In order to register as a new user of the NMP Partner Search System it is necessary to fill in at least all mandatory form fields which are marked with an asterisk.

The "Competences" form field is a free text field where you can describe your organisation's business fields and competences.

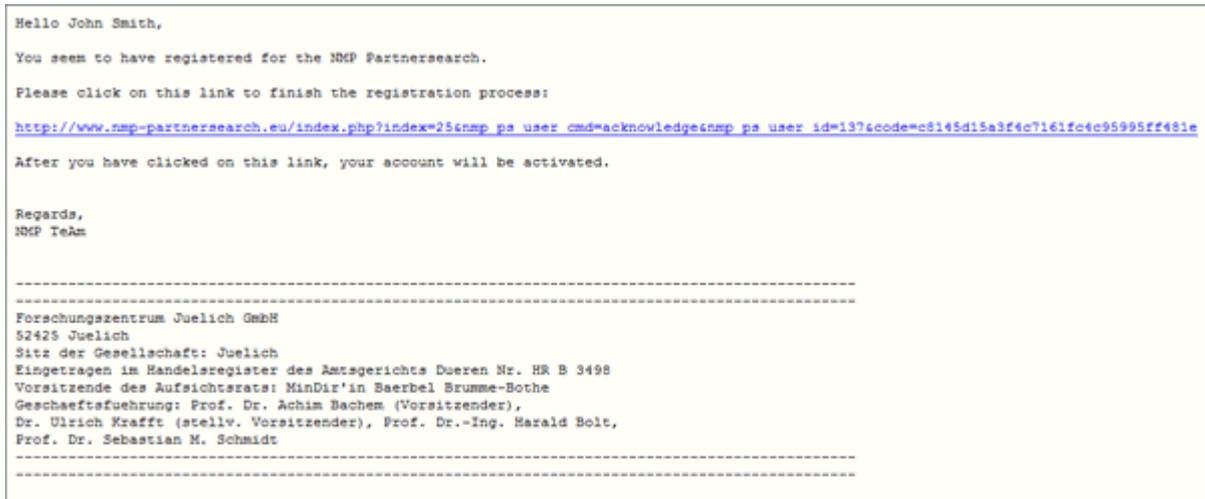

The "SIC Codes" (Subject Index Classification Codes) field is another option to classify your business and make it easier for other users to find you.

Make sure that your password consists of at least of 5 characters and that the e-mail address you entered is valid. To create a secure password we advise you to use at least one symbol or number as well as upper and lower case letters.

The screenshot shows the registration page of the NMP Partner Search System. The page has a blue header with the NMPTeAm logo and navigation links: Home, About NMP, NMP Team Partners, FAQs, Links, Contact Us, Partner Search, Events, News, Call Information, Library, Headlines, and Forum. The main content area is divided into two columns. The left column contains the registration form with the following fields: Sex (dropdown menu with 'male' selected), First Name (*), Last Name (*), E-Mail/Login (*), Academic Title, Organization (*), Street (*), ZIP/Postal Code (*), City (*), Country (* dropdown menu with 'none' selected), Partner Type (dropdown menu with 'please choose...' selected), Internet, Telephone, Competences (text area with a description: '(general description of competences and business fields of your organisation)'), SIC-Codes (dropdown menu with 'undefined' selected), Password, and Password repeat. A 'Send Registration' button is at the bottom of the form. The right column contains a 'Login' section with fields for Username (E-Mail address) and Password, and a 'login' button. Below the login section is a 'Navigation' section with links: Partner Search Home, Search for Partner Entries, Search for Partner Profiles, List of Partner Searches, and List of Partner Offers.

Screenshot 2: Registration

If all mandatory fields have been completed, you are ready to submit your registration. The web application will validate your data. In case of a successful validation you will receive a confirmation message that your registration has been accepted.

Screenshot 3: Registration – Confirmation e-mail

To complete the registration process and activate your user account, you have to follow the link in the e-mail that you received after submitting the registration form.

Congratulations! You are now a registered user of the NMP Partner Search.

2.3 Edit Profile

If you login now you will notice two links in the **User** box at the upper right corner of the website. You can choose between

- ➔ **Edit Profile** to modify the personal data you submitted during the registration process
- ➔ **Add/Edit/Delete your Entries** whose functions will be described in chapter 4 of this manual.
- ➔ **Brokerage Events** to register for Matchmaking events organized by or with support of NMP TeAm
- ➔ **Set E-Mail alerts or RSS feed** to get automatically informed on new partner searches and/or partner offers on specific call topics.

By choosing the **Edit Profile** link your user profile will be displayed and you have the opportunity to edit your data including your password.

Organisation Details * **B** *I* Normal Text

With expertise in research and innovation management, Projektträger Jülich (PtJ; engl. Project Management Jülich) supports its clients in the German federal government and state governments as well as the European Commission in implementing their research policy goals with a focus on project funding. Project funding furnishes the public authorities with an instrument that they can use to set the course for research. PtJ covers a broad range of topics. It combines scientific and structural expertise with administrative competence in a neutral manner independent of its own economic interests. The German NCP Materials is - besides other NCPs - located in PtJ on behalf of the Federal Ministry of Education and Research. The NCP Materials consult researchers in their application in the European Research Framework Programme, especially in the NMBP part of Horizon 2020 and is actually

Screenshot 11: Transferred profile data for B2Match registration

2.6 Search for Partner Entries

In order to find the partner entry you have been looking for simply click the **Search for partner entries** link in the **Navigation** box and use our **Search** form. There are several search options you are able to choose from. Use the **Phrase** form field to search the whole entry database for the phrase you entered or choose one or multiple filter options from the given select fields **Type of Calls** , **NMP – Topics**, **Type** , **Country**, **Partner Type**, **Partner Role** or **SIC Code**.

The screenshot shows a search form titled "Search". It contains several input fields and dropdown menus:

- Phrase:** A text input field.
- Type of Calls:** A dropdown menu with "Open Calls" selected.
- Categories:** A dropdown menu with "4.1 Nanosciences and Nanotechnologies" selected.
- Sub-Categories:** A dropdown menu with "1.1 Maximising the contribution of Nanotechnology to sustainable development" selected.
- Topics:** A dropdown menu with "choose all" selected. A list of topics is visible below the dropdown, including "NMP.2013.1.1-1 Exploration, optimisation and control of nano-catalytic processes fo" and "NMP.2013.1.1-2 Self-assembly of naturally occurring nanosystems - SMALL".
- Type:** A dropdown menu with "Partner Offer" selected.
- Country:** A dropdown menu with "all" selected.
- Partner Type:** A dropdown menu with "all" selected.
- Partner Role:** A dropdown menu with "all" selected.
- SIC-Code:** A dropdown menu with "all" selected.

A "Search" button is located at the bottom left of the form.

Screenshot 12: *Search for Partner Entries*

The screenshot shows the "Search Results" page. It displays two search results:

Result 1:
ID: PO-12-FR-767
Date: 26.06.2012
Topic:
NMP.2013.1.1-1:
Exploration, optimisation and control of nano-catalytic processes for energy applications - LARGE
NMP.2013.1.2-1:
Nanotechnology-based sensors for environmental monitoring - SMALL
NMP.2013.4.0-2:
Innovative materials for efficient, stable and cheap organic photovoltaic cells - SMALL
Institution: CEA
Profile/Expertise: see attachment

Result 2:
ID: PO-12-ES-748
Date: 21.06.2012
Topic:
NMP.2013.1.1-1:
Exploration, optimisation and control of nano-catalytic processes for energy applications - LARGE

Screenshot 13: *List of Search Results*

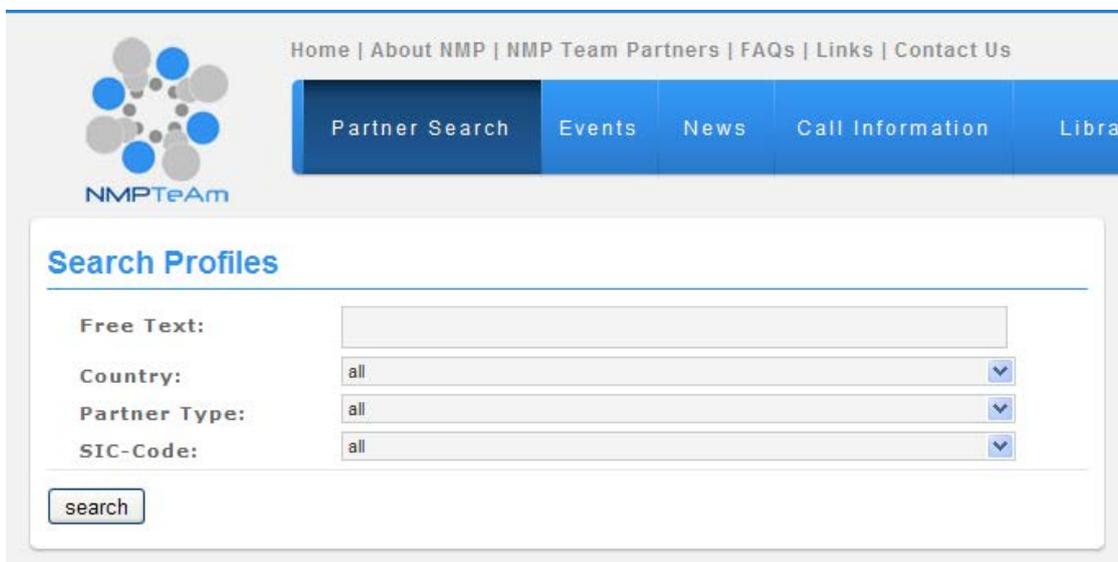

2.7 Partner Profile-Related Search

This profile-related search has been developed in order to offer the opportunity to identify potential partners independent from the current call topics. The search parameters are realised according to the information that has been generated on the base of the organisation profiles and consist of the main business fields and competences of the registered users of the Partner Search Facility.

The search form comprises of the following fields:

- ✦ Free text (to search in the competences of the partners)
- ✦ Country (Dropdown)
- ✦ Partner type (Dropdown)
- ✦ SIC Code (Dropdown)

The Free Text form field allows it to scan the profile data of the registered users.

The screenshot displays the NMPTeAm website's Partner Search interface. At the top, there is a navigation menu with links for Home, About NMP, NMP Team Partners, FAQs, Links, and Contact Us. Below this is a blue header bar with buttons for Partner Search, Events, News, Call Information, and Librar. The main content area features a 'Search Profiles' section with a form containing four input fields: 'Free Text' (a text box), 'Country' (a dropdown menu set to 'all'), 'Partner Type' (a dropdown menu set to 'all'), and 'SIC-Code' (a dropdown menu set to 'all'). A 'search' button is located at the bottom left of the form.

Screenshot 14: *Profile-related Search*

As the result of the search a list of the organisations that fit the research criteria will be displayed:

Name	Type	Country	Organization
Business Development, Medical Devices Philip Jackson	Research Organization	United Kingdom	CERAM Research Ltd
doctor sirbu carmen	Research Organization	Romania	National research and development institute for soil science agro-chemistry and environment - ICPA Bucharest, Romania
Dr. Antonio Monaco	Research Organization	Spain	Centro de Investigación en Tecnologías de Unión LORTEK
Dr. Mirela Maria Codescu	Research Organization	Romania	R&D National Institute for Electrical Engineering ICPE-CA Bucharest
Dr. Terry McGrail	Higher Education	Ireland	ICOMP,

Screenshot 15: List of identified Organisations

By choosing one of the displayed names, detailed information about the organisation appears:

Ingo Rey

Competences

As one of the biggest project management organizations in Germany, Project Management Jülich is a competent partner for science, industry and politics. With expertise in research and innovation management, Project Management Jülich supports its clients in the German federal government and state governments as well as the European Commission in implementing their research policy goals. Project Management Jülich is thus an important point of contact for those interested in Germany as a competitive location for research and innovation in a common European Research Area.

With around 600 employees, Project Management Jülich covers a broad range of topics. It combines scientific and structural expertise with administrative and business know-how in a neutral manner independent of economic interests.

Project Management Jülich has more than 30 years of sound experience in government funding for research and innovation. It designs new funding priorities within the framework of the funding programmes it coordinates, and it prepares the corresponding calls for proposals. Project Management Jülich provides advice for those seeking funding on national and European research funding programmes. It oversees the complete application and approval phase, project implementation, and the exploitation of results.

Project Management Jülich is also responsible for important coordination tasks within the framework of European research programmes. With six National Contact Points dealing with the most important topics targeted by European research funding, it is closely integrated in the preparation and implementation of EU Research Framework Programmes. This position is strengthened by participation in the programme committees of the Seventh Framework Programme. The National Contact Points provide applicants with advice on all issues related to research funding and support them in implementing their projects.

2.8 E-Mail Alert & RSS Feeds

Complementary to the already existing opportunities to look for partners or projects by generating a partner offer or partner search, registered users of the PSF will have the new opportunity to indicate whether they would like to be informed about new entries. This service can be subscribed by two ways: **via e-mail alert or via RSS feed**.

After the login, a user can determine if he wants to get informed via e-mail alert or RSS feed on new entries. The user can choose between "all entries" or "entries filtered by topic(s)". This can be changed in his profile at any time.

The screenshot displays a web page with the following content:

Partner offer (competences/expertise)

TellLab is a multi-divisional SME in which chemistry is the common denominator between the divisions. The company has an independent INAB/ISO 17025 accredited testing laboratory specialising in water and soil analysis. Areas of expertise include inorganic, organic and trace metal detection. At the present time TellLab operates in seven divisions:

1. Environmental Analysis: ISO17025 accredited
2. Machine Care Analysis: Analysis of lubricating oil samples taken from Plant and Machinery.
3. Marker Dyes: Manufacture and supply of marker dyes to the oil industry.
4. Transcheck: Analysis of transformer oils
5. Production Laboratory: Production and supply of chemicals and laboratory apparatus
6. Pharmaceutical Testing
7. Research and Development

The two divisions most applicable to these research topics are the environmental analytical services and the production laboratory. The environmental analytical services for Integrated Pollution Prevention Control (IPPC) licensing, surface water testing and drinking water standard compliance for industry and county councils.

T.E. Laboratories has an extensive background and expertise in the provision of environmental monitoring services. With an ISO17025 accredited water testing laboratory and a newly developed R&D department, the necessary skill set and experience is in place to deliver on an analytical project.

T.E. Laboratories can provide access to water samples from a variety of sources, access to results from ongoing monitoring and access to sites to run in-situ trials. We will also review validation data against the ISO17025 standard and comparison to laboratory validated methods. TellLab's environmental analysis division is composed of a team of third level chemists. The key instrumentation accredited to ISO17025 standard used for analysis are; ICP-OES, FTIR, TOC, F-AAS, GC-FID, UV-Vis, IC, GF-AAS and GC-ECD.

Topics

NMP.2012.1.2-1:
Nanotechnology solutions for in-situ soil and groundwater remediation - LARGE

NMP.2012.2.2-6:
Photocatalytic materials for depollution - SMALL
